Important Changes to Cannabis Age of Inventory Thresholds for Licensed Producers

LDB Wholesale has recently reviewed the age of inventory thresholds for central delivery products. In order to improve product freshness for wholesale customers, some changes to the current LDB requirements will be made.

Maximum Storage Time at LDB Distribution Center

Please be advised that effective November 1, 2024, the maximum storage thresholds for inventory in the LDB distribution center (DC) will be revised to the following:

Flower, Pre-Roll (regular & infused), Edibles:

Current maximum storage threshold	Revised maximum storage threshold
8 months from delivery date to LDB DC	6 months from delivery date to LDB DC, including infused pre-rolls

Beverages, Concentrates, and All Other Cannabis Products:

Current maximum storage threshold	Revised maximum storage threshold
12 months from delivery date to LDB DC	9 months from delivery date to LDB DC

NOTE: Inventory that remains unsold after this time will be returned to licensed producers as aged inventory.

Maximum Age at Time of Delivery to LDB Distribution Center

The maximum age of inventory requirements, at time of delivery to the LDB distribution center, will remain unchanged for most products, except for infused pre-rolls:

Flower, Pre-Roll (regular & infused), Edibles:

Current maximum age at delivery to LDB	Revised maximum age at delivery to LDB
3 months from packaged-on date	3 months from packaged-on date, including Infused pre-rolls

Beverages, Concentrates, and All Other Cannabis Products:

Current maximum age at delivery to LDB	Revised maximum age at delivery to LDB
5 months from packaged-on date	5 months from packaged-on date: No change

The Wholesale Shipping Requirements Guide, posted on the central delivery supplier site, has been updated to reflect the changes (<https://www.bcldbcannabisupdates.com/bcldb-cannabis-supplier-information>).

LDB Age of inventory reports are expected to be updated to the new thresholds in June. Please review your weekly reports and act as needed to minimize the return of ageing inventory. **LDB will begin using the new thresholds for returns as of November 1, 2024.**

If you have questions, please contact the LDB Vendor Relations Team cannabis.vendor@bcldb.com
